

Future of Learning! Virtual Reality led Learning

IITC/OHI Training Academy is pleased to inform you about launching an innovative way of learning which is now considered as Education's Marvelous Revolution – **Virtual Reality led learning!**

Virtual Reality (VR) has been transforming learning since its inception and will likely continue to do so for years to come. VR has changed the past, is changing the present, and will change the future.

VIRTUAL LEARNING
provides the best aspects of
simulations, role-plays, real-
world classrooms, and online
teaching.

In our pursuit to bring world-class solutions locally, we partner with well-established local and international organizations that enable, empower and encourage people development through learning.

Our VR partner is a well-established multi-award winning XR Tech Company, working across a range of industries, and leveraging Augmented Reality (AR), Virtual Reality (VR), Mixed Reality (MR) and 3D simulation technologies to develop cutting-edge interactive, engaging and immersive products for learning and people development.

The **physical simulators** setup at the innovation center at the academy educate & enlighten the delegates on leveraging technologies like AR/VR/MR in various industries namely Oil & Gas, Telecom, Construction, Plants, and Machinery, Automotive and Experiential Marketing etc. The objective is to adopt this technology for various purposes like Operation, Repair, Maintenance, HSE, Marketing, Skilling, Real estate etc.
